Re: Docket NOS 2017-370-E, 2017-207-E & 2017-305-E

Dear Commissioners,

It is my personal belief and opinion that in order for Commissioners to be in the position of being able to make fully informed decisions relevant the above referenced matters coming before the Commission they must have reports, hopefully final conclusive reports, relevant on-going investigations. It is my understanding that there are ongoing investigations by the Security and Exchange Commission, Federal Bureau of Investigation, South Carolina Law Enforcement Division and perhaps other investigative bodies relevant the V. C. Summer Nuclear Plant debacle. I would recommend that the referenced docket items be held in abeyance pending the issuance of any such reports or at the least, any actions taken be subject to modification depending on the contents of those reports.

I would expect that if one or more of the investigations concludes that civil and/or criminal fraud was involved such a conclusion would very much influence the Commission's decision-making process. While one might be able to hold one's nose and be somewhat forgiving when dealing with incompetence those individuals and business that engage in fraudulent acts, of any kind, deserve not mercy and should be dealt with harshly.

I thank all for taking my thoughts into consideration during your deliberations and am

Very truly,

Walter D. Carr
